APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights and is further subject to  
revocation if and when water can be furnished by an entity such as a water district  
or a municipality engaged in furnishing water. A totalizing meter must be installed  
in the discharge pipeline, near the point of diversion, and accurate measurements  
must be kept of water placed to beneficial use. It is understood that this right  
must allow for a reasonable lowering of the static water level. The well shall be  
equipped with a 2-inch opening for measuring depth to water. If the well is flowing,  
a valve must be installed and maintained to prevent waste. This source is located  
within an area designated by the State Engineer pursuant to NRS 534.030. The State  
retains the right to regulate the use of the water herein granted at any and all  
times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 2.0 cubic feet per second, but not to exceed 0.73 million gallons annually.

Actual construction work shall begin on or before N/A

Proof of commencement of work shall be filed before N/A

Work must be prosecuted with reasonable diligence and be completed on or before September 3, 1982

Proof of completion of work shall be filed before October 3, 1982

Application of water to beneficial use shall be made on or before September 3, 1985

Proof of the application of water to beneficial use shall be filed on or before October 3, 1985

Map in support of proof of beneficial use shall be filed on or before
